CORPORATE PROFILE 2020

CORPORATE PROFILE 2020

WORLDCLASS SOLUTIONS

ABOUT US

Arab Builders Trading & Contracting is a national construction company specializing in general contracting, construction management and fit-out services. Throughout our history, we have earned continued success by providing world-class construction solutions to our clients.

Founded in 2014, the company was established to provide painting, waterproofing and partition services. With market growth and thorough planning, the company expanded its services to include comprehensive tiling, Glass Reinforced Gypsum (GRG) and fit-out works.

By utilizing the team's experiences and expertise on both local and international supply chain, the company offers comprehensive solutions to projects, all under a single contract. Our comprehensive team of dependable professionals are some of the leading experts in industry, always ready to work alongside your business to deliver World Class Solutions.

MD MESSAGE

Hesham Sabea

Managing Director
Arab Builders

The team at Arab Builders have embraced a forward-thinking philosophy: one of the attributes that we value and foster as a company. The construction industry is a fast-paced sector and one should be able to adapt swiftly to the ever-changing technologies and demands of our work.

Since establishment, Arab Builders has always taken pride and ownership in the projects that we undertake. Merging passion, pride and experience together to produce solid teamwork and excellent results.

With the company's success, we look forward to investing new opportunities, strengthening the trust of our clients and taking on sustainable projects and processes that will make a positive difference in Qatar. In parallel to this, amplify the company's most important asset: our people. We maximize value creation by investing on best-in-class systems, high-end equipment and conducting regular trainings to produce on-time solutions at all levels of operation.

As a subsidiary of UCC Holding, we are dedicated to our parent company's purpose of adding value to the society. We uphold this by reinforcing our company's values as pillars, moving towards our defined goals and purpose.

MANPOWER RESOURCES

Arab Builders manpower resources cover extensive trades and skills of over 3,000 workers which include masons, carpenters, steel fixers, scaffolders, laborers, foremen, supervisors and charge hands. We have our own inhouse transport capabilities to deploy our manpower to any site, within a relatively short notice period. Our labor camp follows strict guidelines and correct working conditions for all our workers, provided by Qatar's government bodies.

CONSTRUCTION AND FIT-OUT

Arab Builders special work division provides our clients specific trades for their projects, utilizing our skilled workforce and ensuring that projects are completed on time, within budget, and to the expected quality. Our departments offer our clients assistance on projects ranging from the correct choice of materials, value engineering advice, though program planning and technical help, which are performed by our professional staff members.

GYPSUM

Arab Builders' Glass Reinforced Gypsum (GRG) and Glass Reinforced Concrete (GRC) services cover a large division of the company. Our skilled operators create GRG ceilings from simple to complicated, multi-geometry options. Ceiling systems can be complemented with acoustic option and finished in a system required by the client. GRG can also be used in additional areas such as walls and partitions. The team has a wealth of experience in GRC applications; ranging from specialist decorative items and interior room finishes, to complicated roof designs.

PARTITION WORK

Arab Builders partition works division has a full range of internal partitions for our client's office requirements. Glass, steel, aluminum and gypsum board partitions are supplied and installed by our in-house team of highly qualified operators. Each partition system can be designed to ensure full compliance with any acoustic and fire ratings requirement, as stipulated by the consultant, within project specifications. Our installation team ensures client coordination to accomplish work on time and within the program.

PAINTING DIVISION

Arab Builders painting division caters all aspects of internal and external painting requirements, inclusive of textured and normal finishes. Our in-house manpower resources are fully trained and skilled in all aspects of painting needs and can carry out works on all building types. Some of our recent projects include hotel lobbies, bedrooms, restaurants, car parks, VIP villas and palaces.

SPECIAL PAINTING DIVISION

Coupled with our standard painting department is the Arab Builders specialist painting division, offering additional services, such as design options, intricate skilled works, material variances and themed works. The team also offers our clients the ability to carry out unique and specialist works, such as sponging, chamois, stucco, gold leaf applications, wall drawings, street art, Italian and French themed paint design as well as custom designs, all completed by highly qualified professionals within dedicated program deadlines.

TILE AND MARBLE DIVISION

Arab Builders tile and marble division offers our clients full array of materials in tile, marble wall and floor solutions. Our in-house team of skilled operators offer full spectrum of tiling solutions ranging from ceramic, porcelain and granite, for large, heavy and marble tile solutions. The department is supported by a team of skilled professionals, committed to process, supply and install tile and marble project deliverables.

WATERPROOFING AND EPOXY

Arab Builders waterproofing division covers an extensive range of waterproofing services. The team offers epoxy coatings, concrete injections, concrete floor designs, water leakage solutions and floor resins. Complementing our liquid waterproofing solutions is our membrane division, which offers felt, TPO and EPDM waterproofing solutions to tanks, reservoirs, tunnels, roofs and wall applications. To fully comply with health and safety regulations, the team uses mechanical and adhesive fixed approach, ensuring a cleaner and safer working environment for both our operators and clients.

FIRESTOP AND FIREPROOFING DIVISION

Arab Builders is one of the leaders in supply and application of quality products related to firestopping and fireproofing. The company is recognized by the Underwriters Laboratories (UL) as a Qualified Firestop Contractor, along with a certified team of Designated Responsible Individual (DRI) as part of the UL Qualified Firestop Contractor Program. Our group of qualified engineers and technicians have unrestricted experience in handling any projects, related to passive firestopping and fireproofing.

QUALITY ASSURANCE & QUALITY CONTROL PLAN

Arab Builders implements effective Quality Assurance (QA) & Quality Control (QC) plan to all projects to satisfy client requirements. The team adheres to a system of Quality policies and objectives, controlled by project managers and engineers. These consist of the following:

1. Meet the requirements of the contract specifications, within the agreed budgetary and time restraints.
2. Provide motivated and properly trained personnel to perform all activities in accordance with the stated procedure, to be reported to the project manager.
3. Seek to improve the procedures and systems by continual examination and evaluation.
4. Ensure that all workers are fully aware of their individual and collective responsibilities.
5. In order to fulfill QA and QC plan, the project manager shall monitor the composing of on-site administration office, the division and demarcation of responsibilities, project schedule, processing and resources.

HEALTH AND SAFETY

Arab Builders is committed to achieving the highest level of Health and Safety in the workplace, driven by the principle of protecting human life at work. The team implements stringent Health, Safety, Security and Environment (HSSE) objectives into our management systems at all levels, that in turn will enhance business success and add value to our services.

The company provides strict supervision, instruction, information and training to all employees, guided by HSE officials, project managers and engineers. HSSE procedures are carried out by regular inspections at work, formal HSSE audits and walk-through inspections ensuring that all construction activities comply to all applicable laws and observant of HSE's best standards of practice.
